A DROP OF WATER SAVES LIFE!

ACTIVITIES ON THE ISSUE OF WATER

WORLD WATER WEEK

World Water Day has been observed on **22 March** since 1993 when united nation declared 22 March as "World Day for Water". Janhit Foundation celebrated World water week by organizing a drawing competition from 22nd march 2013 to 29th march 2013 at Kasturba Gandhi balika vidhalya focusing the central theme of the day "SAVE WATER". On 1ST April 2013 prize distribution was organized in which director of Janhit foundation and honorable Jeevendra singh yeri (B.S.A, U.P) distributed prizes to top 3 winners. The function ended by giving a message from desk of Mrs. Anita rana **"Concrete efforts are necessary to provide clean drinking water and improve health as well as to increase awareness world-wide of the problems and of the solutions"**

**Drop of water
saves life!**

INDIA WATER PARTNERSHIP MEET

Board of Governors of India Water Partnership (IWP), On behalf of Dr. R K Gupta, President, IWP & Chairman-cum-Managing Director, WAPCOS Ltd. organized 21st Board of Governors meeting of IWP on **12th June, 2013 at 1500 hrs (3.00 P.M.)** at WAPCOS Ltd., Gurgaon. Iwp objective is to support action to sustainable and integrated development and management of water resources at national, regional river basin/sub-basin and local levels in India. To highlight the critical role of water for future survival of human beings and draw attention to its increasing scarcity and the resulting implication for policies, programs, and projects. The Mission of India Water Partnership is to support action of sustainable and integrated development and management of water resources at national, regional river basin/sub-basin and local levels in India. Director of janhit foundation Mrs. Anita rana and her team member attended the meet and participated in a strong dialogue about water conservation.

VISIT TO SANOLI VILLAGE

Water is one of the critical issues which must be taken in consideration. Janhit foundation team with Prof. Pushpindra singh, Ajay kumar garg Engineering College visit sanoli village in Meerut.

There we face the critical condition of farmers who were in stress because they were unknown how to save and conserve water for irrigation and maintaining fields. We visit different places and found the locations where services are needed like pond, wells, etc. There we meet pradhan of village and share strategies of ground and rain water harvesting. We plan the procedure to control the pollution near ponds and how to join hands with committee.

**Water is the driving
force of all nature.**

SANJEEVNI CLUB MEET

“Save planet, then planet will save you” with this objective the president of Sanjeevni club Mrs. Nishi Jain Organized a sanjeevni club meet on 7th June 2013. Director of Janhit foundation Mrs. Anita rana and her team attended the meet where she talk about importance of rain water harvesting, solid waste management that include-plastic, kitchen waste and garden waste. Waste management is a distinct practice from resource recovery which focuses on delaying the rate of consumption of natural resources.

All waste materials, whether they are solid, liquid, gaseous or radioactive fall within the remit of waste management. Waste management practice can differ for developed and developing nations, for urban and rural areas, and for residential and industrial producers. Management of non-hazardous waste residential and institutional waste in metropolitan areas is usually the responsibility of local government authorities, while management for non-

subject to local, national or international authorities. On the other hand rain water harvesting is one of the most important techniques to save water. **Rainwater harvesting** is the accumulation and deposition of rainwater for reuse before it reaches the aquifer. Uses include water for garden, water for livestock, water for irrigation, etc. In many places the water collected is just redirected to a deep pit with percolation. The harvested water can be used as drinking water as well as for storage and other purpose like irrigation. She discuss some methods of rain water harvesting like Instead of using the roof for catchment, the RainSaucer, which looks like an upside down umbrella, collects rain straight from the sky. This decreases the potential for contamination and makes potable water for developing countries a potential application. Other applications of this free standing rainwater collection approach are sustainable gardening and small plot farming.

GROUND WATER WEEK IN KHATKI VILLAGE

A drop of water saves life, water is essential for life. And knowing its importance Janhit Foundation organized Ground water week on 22nd July. Groundwater is essential to the health and well-being of humanity and the environment. We meet the sarpanch of village and organized a meeting where nearby village sarpanch were also present. We discuss about water crises, water crises involves *water stress*, *water shortage* or *deficits*, and *water scarcity*. A *water crisis* is a situation where the available potable, unpolluted water within a region is less than that region's demand. They share their problem of maintaining agriculture field and ground water related problems. Team of Janhit foundation motivate them and provide them new approaches to save ground water like water recharging concepts. Recharge may be impeded somewhat by human activities including paving, development, or logging. These activities can result in loss of topsoil resulting in reduced water infiltration, enhanced surface runoff and reduction in recharge. Farmers got motivated and take oath to save water along with entire janhit team.

WATER MANAGEMENT MEET

Prof. Archana of political science department of Chaudhry charan singh university, Meerut and Janhit foundation organized the seminar on water management. Director of Janhit foundation Mrs. Anita Rana was one of the members of jury along with A.D.G Mr. Mahendra Modi (Lucknow) and vice chancellor of CCS university. She imparts her message about water conservation and tells the importance of rain water harvesting. Mr. Mahendra Modi brings different concepts of water recharging that actively help farmers to save rain water and to increase the level of ground water. He shares some model of water recharging techniques and concepts of recycling water. The seminar ended with a motivated speech of Mrs. Rana where she was honored with a memento. At the end of day Mrs. Rana invited Mr. Modi for press conference which held on the same day at Janhit office with successful program. Mr. Modi and Mrs. Rana plan strategies to implement plans shared with Mr. Modi in different villages.

PANI PANCHAYAT

'Kutte ka Talaab' is situated in Ghaziabad district approximately 1 km from the Lalkaun locality in the village Chipiyana. As legend has it, the pond was historically the tomb of a faithful dog that was mistakenly killed by his master. The pond derives its name from the fact that many people take a dip in the water after having been bitten by a dog. After immersing themselves in the water, the people pay obeisance to the idol of the dog and feel relieved of all physical pain and mental trauma. This folklore is also paid tribute to in the book 'Swadhinta Andolan aur Meerut' written by Acharya Deepankar (Professor of Lacs of Rupees), with records providing evidence of it dating back to the times of Nal and Damyanti.

Janhit Foundation in association with Coca Cola India Beverages Pvt. Ltd. and Charities Aid Foundation has taken up the responsibility of reviving this pond and thus keeping the history of this pond living and the legend alive. Janhit foundation organized Pani Panchayat on 6 May 2013 with the aim to reconstruct Kutte ka Talab which

was in a critical condition. The meeting involved the participation of Janhit's team, representatives from Coca Cola, CAF, and the local administration, the Pradhan of the region and residents of Chipiyana village. During the opening speech, Ms. Anita Rana welcomed all the guests and participants and shared the work being undertaken by Janhit Foundation on water conservation. She also briefed the gathering about this important concept and the activities which would be undertaken in order to restore the pond to its former glory. Mr. Prateek Dubey on behalf of Coca Cola also gave a briefing on similar initiatives being undertaken by his agency. Also present were the Village head Mr. Ravindra Chaudhary, Block Head Mr. Amrishi Bhati and the District President of Gautam-budh Nagar Sh. Fakeerchand Nagar and they all showed a keen interest in supporting Janhit Foundation.

In the end of the programme Janhit Foundation appealed to the local villagers to extend their support and assistance to this project. In addition to this, it was emphasized that the villagers must play a significant role in maintaining the pond.

CAF Charities Aid Foundation

ACTIVITIES ON THE ISSUE OF ENVIRONMENT CONSERVATION

Earth day

Janhit foundation celebrated EARTH DAY on 22nd April in different schools. Director of janhit foundation Mrs. Rana attend earth day function at kasturba vidhalya and st. Jhons school where we organized drawing competition based on the central theme of the day “save planet- our mother earth”. Many students participated and imprint their imagination on the sheet of paper, exploring their ideas of saving earth. Earth day is an annual event, celebrated on April 22, on which events are held worldwide to demonstrate support for environmental protection. It was first celebrated in 1970, and is now coordinated globally by the Earth Day Network, and celebrated in more than 192 countries each year. More over we also organized a program of earth day in Vinayak Institute with support ministry of earth science. There student a participated in drawing competition based on theme save planet. Students reflect their thought on a sheet of paper. In end we honor the winners by giving them trophies and gifts.

ENVIRONMENT DAY

World Environment Day ('WED') is celebrated every year on **5 June** to raise global awareness of the need to take positive environmental action. The 2013 theme for World Environment Day is *Think.Eat.Save.*

The campaign addresses the huge annual wastage and losses in food, which, if conserved, would release a large quantity of food as well as reduce the overall carbon footprint. The campaign aims to bring about awareness in countries with lifestyles resulting in food wastage. It also aims to empower people to make informed choices about the food they eat so as to reduce the overall ecological impact due to the worldwide production of food. Industrial Association group, Janhit foundation and administration along with pollution control board organized environment day at sikandrabad, Bulandshahr. Mrs.Rana director of janhit foundation planted saplings with a

stands in the way. Some see nature all ridicule and deformity... and some scarce see nature at all. But to the eyes of the man of imagination, nature is imagination itself.”

TREE PLANTATION IN SLUM

An innocence child take birth on earth and grow into a matured person, initially that child was not aware of facts about its importance but his mother taught him the importance of his existence and from that day he start taking care of himself and his mother and become successful in life. Similarly a plant grows with care and affection; educating slum children about importance of tree make them to realize the importance of tree existence in this world. Janhit foundation director and her team planted saplings in slum area in shastri nagar, Meerut.

TREE PLANTATION IN CCS, MEERUT

A plantation is not a natural A plantation is not a natural ecosystem. Plantations are also sometimes known as "man-made forests" or "tree farms", though this latter term more typically refers to specialist tree nurseries which produce the seedling trees used to create plantations. More generally a plantation is a forest land where trees are grown for commercial use, most often in a naturally regenerated forest but could also be a planted. Tree planting is grounded in forest science, and if performed properly can result in the successful regeneration of a deforested area. Reforestation is the commercial logging industry's answer to the large-scale destruction of old growth forests, but a planted forest rarely replicates the biodiversity and complexity of a natural forest. On 11th August 2013 Janhit foundation, Rotary club and forest department organized an afforestation program in Chaudhry Charan Singh University, Meerut. Mr. Lalit verma (DFO), Mr. V.C. goel (V.C of CCS), Dr. vimla and Prof. Yogendra along with director of janhit Mrs. Anita Rana planted trees. Many students of CCS planted saplings and took oath to make city green and pollution free.

**PLANT TREES SAVE
FUTURE!**

OZONE DAY AT KASTURBA VIDHALYA

September 16 was designated by the United Nations General Assembly as the **International Day for the Preservation of the Ozone Layer**.

This designation was made on December 19, 1994, in commemoration of the date, in 1987, on which nations signed the Montreal Protocol on Substances that Deplete the Ozone Layer. Cognizant that education and information are the key to solving this problem, World Ozone Layer Preservation Day was established to increase awareness of the need to halt the steady destruction of this vital layer of the atmosphere.

A wide variety of activities will celebrate the occasion,

preparation and dissemination of press articles, scientific and technical lectures, and radio and television programs.

Janhit foundation organized ozone day program at kasturba vidhalya, meerut .We organized debate competition and drawing competition at kasturba school. The theme of the day was “a healthy atmosphere, the future we want”. Student participated and keep there point of view about who is responsible for ozone depletion and draw their imagination on the drawing sheet reflecting the theme of the day. In the end winners were honored with gifts from director of Janhit Mrs. Rana.

**CONTROL
POLLUTION**

And

Plant Trees

**“It’s the only
solution to control
the ozone layer
depletion”**

CELEBRATED LABOURS DAY

On 1.May.2013 Janhit foundation celebrated labours day at chamber of conference, Meerut. JF and Childline participated and put forward their thoughts and working of Meerut childline1098. Ministry of labour Mr. Shahid Manjur and DLC (District Labour Commissioner) were present who provide opportunity to JF to aware people present in the conference hall about childline. Mrs. Rana director of JF make them aware of facts about child cases and how they help in rescuing children from the trap of people who were using them.

15 AUGUST INDEPENDENCE DAY

"Our mother land says" save every child , protect me , and accept those who have no hope"
Meerut childline celebrated the auspicious occasion of 15th August in their own office , The program was started with national anthem and patriotic songs after that Director of Janhit Foundation Mrs. Anita Rana delivered few nice views regarding childline,

Childline celebrated this programme with 5 slums(Bangali Basti, Shastri Nagar, Islam Nagar, Shayam Nagar , Lohiya Nagar) children, In the end programme ended with laddu distribution

NARI CHOPAL, NOCHANDI, MEERUT.

On 11.May.2013 JF organized a cultural program Nari chopal at nachandi, Meerut. We provided the platform for slum children to show their talent and also promote them. they show their talent as a singer, dancer and a poet. We appreciate their talent and honored them with trophies and gifts. Children were very happy and their face was reflecting their inner heart feeling and considering among one of us with no discrimination.

2 ORPHANS MOVE FROM ROAD TO SHELTER HOME

Meerut childline received information about a new born orphan girl child found at gate of ramanuj vaishya anathalya. After getting the information Meerut childline received the place and got the child medically examined. After obtaining fitness certificate, the child was taken to Child Welfare Committee which ordered that child should be put under the Rampur based child shelter. to Child Welfare Committee which ordered that child should be put under the Rampur based child shelter.

A person named Vasim Khan taking a 06 month child came to Child line office. He told that he found that child on footpath . He doesn't know about her parents and the child was ill. She was suffering from fever so he wants to secure that child. Taking the child Child line team member went to C.W.C office. Seeing child's serious condition C.W.C ordered for admitted the child in L.L.R.M hospital. Child line team member admitted the child in L.L.R.M hospital.

CHILD HELPLINE RESCUES-GIVING A NEW LIFE

**RAID “RESCUE OPERATION,
NAUCHANDI, MEERUT”**

Meerut Childline received a call from Lucky Lamba she informed that her daughter Pratima Lamba is bounded labour at New Bharat circus in nauchandi Mela Meerut After getting information childline coordinator contacted with all departments (Police, CWC, District Magistrate and another concerned persons) lucky lamba informed that her daughter is bounded labor in New Bharat circus and she had contacted with circus owner several times about the freedom of her daughter but he always denied to get free her daughter from circus and he deliberately capped her daughter in circus after the long harassment Lucky Lamba failed to get free her daughter from circus than she approached to local NGO of Nepal and then she able to contact with childline Meerut, as soon as Lucky Lamba reached at Meerut with her unit Meerut childline get active and reached at New Bharat circus with all concern departments after all hurdles and long rescue

operation childline able to get free Pratima from circus and take her at childline office

EDUCATION TO A SLUM

A boy from slum belong to a poor family they had no enough money that they can help their child punit in operating his eye. He was unable to read clearly and suffering from eye problem that need medication as early as possible. One of our childline member was on outreach to slum there he found punit in pain because he was unable to open his eye due to viral infection. We help him and provide all hospital facilities to him. We admit him in medical hospital where he was given proper treatment and now punit can read his book and see this world clearly.

EDUCATION COMES TO SLUM BOY

Suresh belong to a poor family in slum who have no enough money that they can spend for suresh operation. Suresh fall down of stairs and got his hand fractured. Our team member during their

his hand was almost damaged due to home based treatment due to which he was unable to attend his class examination. We took him to the medical hospital and provide full treatment, doctor told us his bone is broken due to which they insert a rod in his hand. Suresh suffered a lot of pain but after his successful operation now he can attend his school and give examination. We feel great when we saw suresh topped his class and able to write even eat food with his own hand.

DAILY CHECK UPS KEEP US AWARE OF DISEASES

Basic health needs are not available to poor slum people in Meerut town, UP, India. Incidence of diseases like Malaria and malnutrition rate is high. Many people do not have awareness about health and hygiene. Steps will provide healthcare and health education to poor slum dwellers. Janhit foundation organized a health camp in slum area of Meerut like in shastri nagar, Bengali basti and many more. Dr. Tanu raj serohi was present for checking people of these area and we found people suffering from dengue, high fever, malaria, viral infection in eye and many more critical diseases. We provide them medication and admitted the serious cases in LLRM.

CANDLE MARCH Under the banner “अब और नही”

CHILDLINE organizes the two day activity on 16th & 17th may 2013 under the banner of “अब और नही”, Meerut

CHILDLINE organized an candle march on 16th may 2013, slum children, students, CWC Meerut & police personnel's & social workers took part in the said candle march. On 17th may 2013 Meerut CHILDLINE organized an resource organization meeting with the allied system son the theme child sexual abuse-prevention, reporting & effective intervention. District Probation Officer of Meerut Mr.Yatendra kumar throws light on provision in law related to child sexual abuse. Senior Psychologist of Meerut medical college Dr.Sona kaushal Bharti gave lecture on child psychology. Over the last few months, several reports of horrific incidences of kidnapping, brutal gang rape, torture or murder of children in different parts of the country have revealed the horrible reality of Child Sexual Abuse existing in our society and increased brutality in committing such crime against children. In January, a 4 year old girl was kidnapped, gang-raped and killed in Sirsa district of Haryana. Her body was found in a sewage pond. A five year old girl was raped, physically tortured and locked inside a room in an

injuries. A 4 year old girl was gang raped and abandoned in a crematorium in an unconscious condition in Ghansaur town in Seoni district of Madhya Pradesh. The girl died in a hospital in Nagpur on 29th April 2013. These incidences have drawn widespread response from common people demanding safer, secure and protected environment for children in the country and ensure justice to those who have been brutalize and victimized.

children plus students participated. The objective of candel march was to protect the girl child who is being abolished and differentiated from society. The student participated give message “save youth of today, hope for tomorrow”. The march started from janhit office crossing entire shastri nagar and end at t-point near of shastri nagar sec 6, Meerut.

CHILDLINE as an agency with core mandate of protecting children from all forms of abuse, neglect, violence and exploitation, the network should collectively and proactively express its solidarity to this call. In order to voice our concern and express our collective solidarity, we have decided organized some activities against child sexual abuse in our respective cities involving stakeholders, allied systems and people in general. On 16th May

EDUCATION TO SLUM CHILDREN

“Educate me I will educate the world”

Children living in informal settlements must grow up fast: they are often the informal solution for their families struggling to deal with daily problems involving infrastructure access and livelihoods. Children too often fetch water, watch over younger siblings and sick household members, and step into the role of productive contributors to help the household make ends meet. Saddled with these responsibilities, they must often limit or forego their schooling, cutting short their future educational potential and the economic and social opportunities, as well as skills, that education affords. This vicious cycle of poverty is one of the biggest issues in development, and necessitates significant creativity to problem solving. We help slum children to gain basic knowledge and education so that they also found themselves one of those who have all opportunity. Not only basic education but also admit them in schools for further studies. Janhit foundation currently imparting education in A-Block slum, Bangali basti, and many more slum areas. Our team member helps slum poor children in learning and also provides good morals about bad touch and good touch. Innocence child is unaware of facts about this world and if we talk about slum children they are unknown to this infinite world.

only help them to grow and raise their living style when they will see their children stepping towards success. These children are one of us pillars of nation. To reach the label of developed country we need to educate our people for welfare of our nation.

DUDA MEETING FOR AWARENESS

To aware under privilege communities about Childline, Meerut Janhit foundation organized a meeting in their office of all DUDA (District Urban Development Authority) CDO's(C.D.O.s are the authorised officers

are solely responsible of that particular slum and directly linked with the community), The objective of this meeting was to aware the cdo's about the working of childline and how child line can help out the under privilege community, In the meeting childline staff also download all the activities of child line and what are the benefits of childline project and how we can help any children. It can be medical, missing, child abuse, child labour, child trafficking any kind of help which is required; we also share our success stories, rescue operations and other some good experiences. The main objective of meeting is to aware the cdo's about childline because they have very good interaction with community on daily bases with is helpful for the children. Finally the meeting was very interactive and the cdo's put their quires about the working of child line.

A SEMINAR ON IMPORTANCE OF DESI COW "GHEE"

On 1st September Janhit foundation organized a seminar on the topic "importance of desi cow". Dr. Hitesh jani (prof. CCS University) gave a brief presentation about desi cow importance; he talked about important facts about cow and our health. How we are related to our own destruction of health. Major causes of health are Heart disease, Cancer, Stroke, Chronic lower respiratory diseases (emphysema, chronic bronchitis), and Diabetes. He shares technique to fight with such diseases that include use of pure milk ghee. Pure milk ghee doesn't increase our fat but add necessary protein and nutrients to our body. He explained the chemical bonding structure of ghee, talk about import cow to universe in different fields of health, employment, agriculture etc. GOMUTRA fights against cancer. He also told the importance of pottery utensils in daily life.

DIALOGUE WITH GRAM PRADHAN

Director of Janhit foundation Mrs. Anita Rana and her team member visit machra village on 28 September. There we attend pradhan meet where pradhan of different village were present, we talked about importance of organic farming and its implementation. We also discussed about farmer demands and problem they are facing in agriculture field. Organic agriculture is a production system that sustains the health of soils, ecosystems and people. It relies on ecological processes, biodiversity and cycles adapted to local conditions, rather than the use of inputs with adverse effects. Organic agriculture combines tradition, innovation and science to benefit the shared environment and promote fair relationships and a good quality of life for all involved... Through this effort we can bring a change in Indian farming especially in sectors where farmers are unaware of its importance.

WOMEN EMPOWERMENT 1090 AWARENESS

..... there is no tool for development more effective than the WOMEN EMPOWERMENT

On 4th September 2013 Janhit foundation organized women empowerment helpline 1090 awareness program in certain schools like Snatan Dhram inter college; (Bulandshahr), Meerut public girls school (western kucheri road Meerut), Khar Lal girls inter college and degree college; Meerut, Kasturba Gandhi balika vidhyalya, Meerut. Mrs. Uditia tyagi (director of Disha ngo) was the chief guest of the program. She shares her thoughts and knowledge about the helpline 1090. Mrs. Anita Rana provide message to all the students about the power of women rights and equality as "men discover fire but a women discover how to play with it"...with these inspiring message she make them aware about helpline 1090 and its importance.

AGANWADI WOMEN

Janhit foundation director and her team visited aganwadi , shastri nagar Meerut where they organized a meet with aganwadi women. We make them aware about health caring issues related pregnant lady, use of sanitary napkins , power helpline1090, and also about importance of a girl child in today's scenario. Janhit team members also distribute them pamphlets of childline and health chart. We know efforts towards developing a strong nation is through awareness and building such laws that provide full protection to a citizen of nation. Team member inspires them and says-“The emotional, sexual, and psychological stereotyping of females begins when the doctor says “it's a girl” protect a girl child.

ACHIEVMENTS BY JANHIT FOUNDATION

- Janhit foundation was honored by Shahid manjoor for great work in social causes on 8th September.
- Mrs. Rana director of janhit was honored for work in field of water on 28th September by CCS University.
- Rastriya Pryavaran Ratna Puraskar (2013) by Vishva Mitra Parivar, Delhi.
- Mahila Samman From Prayatana in Delhi.
- Many other awards in District and State Level
